#### Developed a website using HTML, CSS, JavaScript & Wordpress

**(1.5 YEARS)**

Company: **Androcoders**

In developed this website using HTML, CSS, and JavaScript to ensure a clean and responsive layout. Graphics were designed using Canva for a professional visual appeal. For content creation, I used ChatGPT to craft clear and engaging text. The result is a fast, user-friendly, and visually balanced website.

I carefully utilized powerful plugins such as All-in-One WP Migration for easy site backup and migration, Elementor for custom drag-and-drop design, Code Snippets to manage PHP code efficiently, and Gutenberg for clean content editing. Features like Country Code & ISO, Akismet Spam Protection, WooCommerce, Contact Form 7, All in One SEO Pack, Popup Maker, Beaver Builder, and Duplicator helped streamline SEO, security, performance, and user experience. I gave my best to deliver a modern, responsive layout with professional quality.
